PRODUCT DESCRIPTION

Unleash your imagination and create the lighting effects that best suit your environment and mood.

With the help of the Avide remote-controlled LED lights you may pick the color you want (red, blue, green, yellow) as well as set a warm white (2700 K) light. The product is suitable for both mood lighting and use as a main light. One remote can be used to control several, even different forms of Avide LED bulbs simultaneously. Our product range includes several products with remote control option with different forms and bases.

You may switch the product on and off with the remote, you can control brightness and with the six mood buttons of the remote, you can create additional lighting effects. The remote operates with 1 CR2025 coin battery included in the box. Please note that the plastic protective foil on the battery must be removed before use.
